Junior College Newsletter

8 MARCH 2019

Dear Woodlands Family,

This week we participated in the Inter Primary gala at Boksburg North Swimming Pool. Unfortunately, after a terrific start where Ting Wei Deng broke a record in the first event, and Kayla De Wet (now Grade 7 and in our Senior College, but still U13) broke a record in the second event, the gala was cancelled due to weather conditions – lightning etc. Imagine an indoor event being cancelled due to the weather! However, it was a huge storm and our swimmers were not safe. Nevertheless, the Woodlands Junior College swimmers have had a great year. We expanded on our teams, where we once again had both an “A” and a “B” team. Many of our little people could never have imagined that they would be swimming in a gala already this year, but they did. I felt very proud of all our swimmers. I would like to thank Mrs. Moolman, Coach Claudia and Coach Danny for their enthusiasm this season. We look forward to next season, and we will be starting again with training towards the end of this year. In the interim, if your child really loves swimming and isn't afraid of commitment and effort, then you could think about letting your child join a club. They would then continue to train and receive further advice in terms of stroke correction from a club coach.

The Junior College would also like to welcome Mrs Melinda Dias to our front office admin team. Mrs. Dias comes to us with years of experience in the field, and the combination with Mrs. Yvonne Stokes (also relatively new) will be a winning one. Welcome to the Woodlands Junior College family!

So remember, never, ever, give up.

Dr G Pienaar
