A MESSAGE FROM OUR PRINCIPAL

Dear Parents, Guardians and Students,

Our Matrics have officially begun their final exams, and while the school routine may look a little different at the moment, we are incredibly proud of how they have settled into this important final stretch. They have approached their first papers with maturity and commitment, and we wish them every success as they continue through their exams. Keep going, Matrics — the finish line is in sight!

A very big good luck to all our teams taking part in the St Peter's Festival this weekend. We know that you will give it your all, enjoy the experience, support one another and, most importantly, represent the College with the pride and sportsmanship that we know you have. While results are important, the experience and memories are just as important and I wish each participant an awesome experience!

I would also like to extend my congratulations to our Top 10 students across the various grades. Your hard work, dedication and commitment have certainly paid off, and you thoroughly deserve the recognition you have received. Well done — you have set a wonderful example of what can be achieved when you put in the effort.

For everyone else, remember that the year isn't over yet! There is still plenty of time to make a difference. Your current results are not the final chapter and not your label. Use them to identify where you can improve, set yourself some goals and put in the work. A little more focus, a little more effort and a little less procrastination can go a very long way!

It has been another wonderful week at school and although it has been slightly chaotic and busy our students approach each day with a smile on their face and that makes me happy!

SEEING THEMSELVES IN ART

Our Grade 10 Visual Arts students have been exploring the art of self-portraiture, creating 1:1 scale self-portraits in charcoal.

Working carefully from observation, students focused on capturing their individual features, proportions and expressions while developing their charcoal drawing techniques. The results showcase both their creativity and growing artistic confidence.

Take a look at some of their impressive work below!
